Dear Josh:

We are very pleased to know that you and your friend and Esther may drop in on us, and we are looking forward to it eagerly. Our home is at 1310 South Thompson in Carbondale, which you can locate on Sunday without too much difficulty. We will spend some time there on Sunday, but most of our time is spent on the farm, and in the event that you do not find us, please ask any one of our neighbors, either to the north or south, or directly across the street, and they will direct you to the farm. We will leave the house open, and you can go in and make yourself at home, because you may come directly from a long drive and want to rest.

Sincerely yours,

Carl C. Lindegren
Director
Biological Research Laboratory
